DETAILED ACTION
EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy J. Keefer on January 11, 2007.

The application has been amended as follows:

IN THE SPECIFICATION:

Please replace the paragraph starting at page 13, line 14, with the following amended paragraph:

The gain functions G_1 and G_2 of **Equation 2** may be computed as:

$$G_2 = 1/G_A$$

Equation 4

$$G_1 = 2\pi f_c/G_2$$

where:

G_A is the desired gain of the system, and

f_c is the desired cut-off frequency of the system;

the system being the battery (100) and the load, in ~~his~~ this case the power drive (52).

IN THE CLAIMS:

1. (currently amended) An electrical power supply for providing electrical power to a load, the power supply comprising:

a plurality of energy storage elements each having a different operating characteristic and connected in an electrical circuit to said load;

a circuit element interposed between at least one of said storage elements and said load and operable to segregate said one of said energy storage elements therefrom, said circuit element being selected to match supply of energy to said load to said characteristics of said storage elements; and

a power monitoring unit to monitor power supplied by at least one of said energy storage elements to said load and control demand by said load ~~[[in]]~~ for power from said at least one of said energy storage elements.

2. The following is an examiner's statement of reasons for allowance:

Claims 1, 2, and 4-18 are allowed because none of the prior art of record discloses or suggests the claimed power monitoring unit which controls demand by the load, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hal I. Kaplan whose telephone number is 571-272-8587. The examiner can normally be reached on M-F 8:30-5:00.
